

CALL FOR PRICES ON ALL HOSE

Glenmore Kilt Hose

Looking for light weight, inexpensive kilt hose? Why sacrifice quality for economy? Our Glenmore hose are affordable, comfortable, and exhibit the quality you expect from the House of Cheviot. Made with a 3ply Merino wool blend, they have a slightly looser knit than our other hose, making them cooler to wear. They feature a subtle mock-cable moss stitch top. [Click here for purchasing information.](#)

Machine washable in cool water on the gentle/delicate cycle. Allow to air dry.

Glenmore Hire Packs:

Our Glenmore hose are also available at reduced rates in packs of 24 (per size and color) in shades ecru and black; ideal for the kilt hire trade.

Embroidered Glenmore:

Available with embroidered cuffs in three motifs as shown below. Stocked in Ecu shade only. Other colors available to order, 3 per size and color.

Harris Kilt Hose

Fully seam free kilt hose, allowing a much better fit for those with larger calves. While these hose work perfectly well for men with average sized calves, the natural stretch of the material allows them to fit calves up to 26" in circumference! Ribbed leg and a subtle cable pattern cuff. The Harris hose are made from a 3ply Merino wool/acrylic blend. They are made with a fully reinforced foot, which not only adds to the comfort when wearing, but significantly extends the life of the hose. Most socks wear out first in the heel and toe; the reinforced foot helps keep wear and tear at bay, making these hose a smart investment. [Click here for purchasing information.](#)

Pipe Band Hose

A popular style not only among pipers, but also anyone who wears the kilt! The extra long tops on these hose are designed to be folded over multiple times, allowing you to adjust the height of the hose precisely where you want it, and also making the cuff a bit thicker than standard hose. These hose are made from a 3ply Merino wool/acrylic blend and feature a fully reinforced foot, which not only adds to the comfort when wearing, but significantly extends the life of the hose. Most socks wear out first in the heel and toe; the reinforced foot helps keep wear and tear at bay, making these hose a smart investment. Also available in pure white acrylic (95% acryle, 2% nylon, 3% lycra). [Click here for purchasing information.](#)
